PLAYERS WILL LOVE HOW IT PERFORMS IN THE AIR.

YOU'LL LOVE HOW IT PERFORMS AT YOUR LOCATION.

G-LOC AIR BATTLE can pump adrenalin through a body with about the same velocity that an F-4 gulps jet fuel. Ditto for the way coins will be rattling through the coinbox.

Only Sega can build a video simulator game that performs as well at your location as it does on your bottom line. G-LOC delivers the pulse pounding excitement your customers will keep coming back for.

G-LOC offers players 38 stages within three different player-selectable skill levels. The beginner level is a challenging 9-stage training course with plenty of action. The intermediate level introduces the use of the throttle and afterburner and sends players into 13 stages of faster paced aerial combat. The third level lets "Aces" engage in 16 stages of fierce, high-speed dogfights.

G-LOC Air Battle is available in upright, cockpit, and deluxe (moving cabinet) configurations. Each features realistic flight stick, throttle (with afterburner button), guided missile launcher, machine gun trigger, and continous play. Air sickness bags are not included.

G-LOC AIR BATTLE

LOSS OF CONSCIOUSNESS BY G FORCE

Park a few of these babies on your flight deck and get ready for some heavy traffic. For more information call your authorized SEGA distributor.
